Step 1 — Framework Laptop Quick Start Guide

- Unbox your Framework Laptop. You should not power it on at this time.

## Step 2 — Remove the Framework Screwdriver from the box

- Locate the Framework Screwdriver in the package underneath the Framework Laptop and keep it handy - it's the only tool you'll need should you decide to replace or upgrade any of the internal components!

Step 3 — Assemble the Power Adapter

- After unboxing the Framework Laptop, assemble the modular Power Adapter. Connect the AC cable and the USB-C cable to the Power Adapter.

Step 4 — Insert the Expansion Cards

- Insert the Expansion Cards of your choice into any of the empty bays.

- The text, logo, and QR code on the Expansion Card must be facing down. Slide the Expansion card into the bay. Using two or more fingers push the card until into the bay until it clicks.

⚠ Important: You will have to use a slight amount of force to ensure proper installation of the Expansion Cards.

- Connect the USB-C cable from the Power Adapter into the USB-C Expansion Card. Connect the AC Cable to a power source.

Step 5 — Turn on the Framework Laptop

- Turn the Framework Laptop over and open it.

- Power on the laptop by pressing the power button, and get ready to start using your very own Framework Laptop!

Step 6 — Setup Windows

- Follow the on-screen instructions to set up Windows and log in.
